Bachelor Of Science Honors Degree in Information Technology

TECHNICAL SKILLS

- Mobile Development: Flutter, React Native
- Web Development: React.js, PHP
- Frameworks & Libraries: Laravel, .NET
- Programming Languages: Java, C++, C#
- Databases: MySQL
- BI & Tools: Power BI

EXPERIENCE

[Software Developer | Talk&Pay (TAP), Dubai UAE |From july 2024 - Current]

- Develop and maintain high-performance, cross-platform applications using Flutter, ensuring seamless front-end and back-end integration.
- Build and enhance mobile applications with React Native, focusing on creating responsive and intuitive user interfaces.
- Implement and maintain real-time chat and calling functionalities, improving user engagement and application stability.
- Integrate secure and efficient payment gateways, streamlining transaction processes for a smooth user experience.

Software Developer | Sovereign Payment Solutions, Zimbabwe (January 2022 - December 2023)

- Developed secure, scalable, and robust APIs using the Laravel framework for efficient data exchange between server and client applications.
- Designed and implemented intuitive, user-friendly UI/UX for mobile applications, enhancing the overall user experience.
- Built cross-platform applications using React Native, ensuring consistent functionality and appearance across both iOS and Android devices.

IT Support | CUT, Chinhoyi-Zimbabwe (March 2021 - December 2021)

- Diagnosed and resolved a wide range of hardware, software, and operating system issues on desktops and laptops to minimize user downtime.
- Served as a primary point of contact on the IT help desk, providing timely and effective technical support to faculty, staff, and students.
- Configured and deployed networking equipment, including routers, switches, and wireless access points, across multiple university departments.
- Identified and rectified network connectivity problems, including IP conflicts and firewall misconfigurations, to restore and maintain stable network access
